

CMC and ACEM at the 2018 OECD International Transport Forum

The Connected Motorcycle Consortium (CMC) and the European Association of Motorcycle Manufacturers (ACEM) will participate in the 2018 edition of the OECD International Transport Forum that will take place between 23 and 25 May in Leipzig, Germany.

The theme of the Forum will be "Transport Safety and Security" and it will address a wide range of issues including: connected vehicles, planning and design of safety transport systems, road infrastructure and safety management and the link between economic activity and road safety trends.

Motorcycle safety experts from the CMC and ACEM* will be present at the 2018 International Transport Forum to elaborate on some of the different initiatives led by the industry to improve motorcycle safety in Europe,

CMC experts will discuss with attendees the potential of connected intelligent transport systems (C-ITS) to improve motorcycle safety, the need for interoperable C-ITS applications as well as the risks and benefits of car automation for motorcyclists' safety.

Moreover, the Secretary General of the International Motorcycle Manufacturers' Association will deliver a presentation on the situation of motorcycle safety at an international level.

Additional information and registration
